The Standard AND RIVER PLATE NEWS.

No 3,285—THIRTEENTH YEAR. BUENOS AYRES, FRIDAY, MAY 2 1873. CIRCULATION, 3000.

MAUA BANK

101 & 103 CALLE CANGALLO.

The Offices of this Bank having been removed to the above spacious Building, in order to suit the increasing flow of business, the Public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities, approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current, bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of cheques part or the full amount, at their wish, save when the quantity exceeds three hundred doubloons, for one hundred thousand dollars currency, in which case forty-eight hours' previous notice is required to be given to the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta. Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England, and France, as also on other places, of which due notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions, within the orbit of banking operations.

The Establishment is always open from 10 a.m. till 3 p.m.

P. P. MAUA & CO.
M. A. DE FREITAS AMORIM.

—cj—n23

GOVERNMENT MORTGAGE BANK

Offices—111 CALLE SAN MARTIN.

This Bank will be open to the Public on all business days from 10 a.m. to 4 p.m.

It advances on real estate to be repaid at long dates.

It pays Mortgage Certificates (Cedulas Hipotecarios) for the amount of the loan it advances, which bear an interest equal to that collected by the Bank.

The value of property offered in mortgage shall not be under two thousand patacons, nor the loan be less than 500 duertes.

No loan can exceed half the value of the property mortgaged.

The Mortgagor shall bind himself to pay an annual sum so long as the mortgage lasts, said sum to represent the interest on the sum lent the amortization fund and commission to the Bank. This yearly sum shall be paid quarterly or half-yearly.

Series A—Quarterly.

Mortgage for 20 years 117 days, 8 per cent. interest, 2 per cent. amortization, and 1 per cent. commission.

Series B—Quarterly.

Mortgage for 27 years 270 days; 8 per cent. interest, 1 per cent. amortization, and 1 per cent. commission.

Series C—Half-yearly.

Mortgage for 20 years 190 days; 8 per cent. interest, 2 per cent. amortization, and 1 per cent. commission.

Series D—Half-yearly.

Mortgage for 28 years 5 days: 8 per cent interest, 1 per cent. amortization, and 1 per cent commission.

Upon the full payment of the yearly sums stipulated in the Mortgage, both property and Mortgagor shall be freed from all further obligation.

The Mortgagor shall be at liberty to anticipate the payments and to discharge the mortgage, all or in part.

Applications for mortgages must be made in writing, specifying the property offered, accompanied by the title deeds, the receipts of the Contribucion Directa tax, and setting forth that the property is free from all incumbrance, or if not the incumbrance that exists thereon, and which is to be paid off by the mortgage. The Secretary of the bank will supply applicants with the forms necessary as also the tables for amortization.

Quarterly mortgagors shall pay from 8th to 15th of each January, April, July and October, and half yearly mortgagors shall pay between the 8th and 15th of each January and July.

With the amortization fund, mortgage certificates (cedulas) shall be redeemed at par by quarterly and half yearly drawings.

The mortgage Bank pays the interest on the quarterly cedulas or mortgage certificates between the 31st December and 6th January, the 31st March and 6th April, the 30th June and 6th July, the 30th September and 6th October every year, and on the half yearly cedulas from the 31st December to 6th January, and from 30th June to 6th July.

The Mortgage Bank can act between the capitalist and mortgagor, free of charge in the way of realizing the cedulas, and for this purpose will receive deposits without interest, which will receive a preference, and which sums will be deposited in the Provincial Bank.

On and after the 15th February 1872 the Mortgage Bank will be open to the public.

José M. La Fuente,
Secretary.

Ferruginous Gin.

ANALYSIS
BY
Professor Kyle.

The Iron exists in the form of a protosalt, one fluid ounce of the Gin containing 3-10ths of a grain of Protoxide of Iron. The Ferruginous Gin may therefore take its place amongst chalybeate preparations, and be employed with advantage where the administration of a tonic alcoholic stimulant is indicated.

MAUA BANK

101 & 103 CALLE CANGALLO.

The Offices of this Bank having been removed to the above spacious Building, in order to suit the increasing flow of business, the Public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities, approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current, bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of cheques part or the full amount, at their wish, save when the quantity exceeds three hundred doubloons, for one hundred thousand dollars currency, in which case forty-eight hours' previous notice is required to be given to the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta. Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England, and France, as also on other places, of which due notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions, within the orbit of banking operations.

The Establishment is always open from 10 a.m. till 3 p.m.

PROVINCIAL BANK OF BUENOS AYRES.

Business Hours, from 10 a.m. to 4 p.m.

Deposits of not less than $400 m|c and f.16 received. These deposits will not be entitled to interest if retired before the expiration of sixty days from the date of such deposit; after sixty days they will be entitled to interest from the date of the deposit. All interest not collected shall at the end of each year be capitalised. All deposits at interest shall be entered in a book which the Bank will deliver to the depositors, in which all payments of interest and capital shall be entered, and all interest shall be payable after the first of the month, or on returning the deposit.

The Bank discounts bills with two signatures, having from seven to ninety days to run; it also discounts mercantile bills of from seven days to six months, on the condition that at maturity they are paid in full.

The Bank draws at sight upon the following branches:—

DOLORES,	CHIVILCOY,
SAN NICOLAS,	MERCEDES,
LOBOS,	BARADERO
SALTO,	AZUL.

The Bank pays commission to Brokers on the first discounting of bills and promissory notes.

LOANS TO THE WORKING CLASSES.

The Bank lends to artizans and operatives sums from *Three to Twenty Thousand Dollars*, on their own signature, taking as security a document with any well-known signature.

CREDITS IN ACCOUNT CURRENT.

GOVERNMENT MORTGAGE BANK

Offices—111 CALLE SAN MARTIN.

This Bank will be open to the Public on all business days from 10 a.m. to 4 p.m.

It advances on real estate to be repaid at long dates.

It pays Mortgage Certificates (Cedulas Hipotecarios) for the amount of the loan it advances, which bear an interest equal to that collected by the Bank.

The value of property offered in mortgage shall not be under two thousand patacons, nor the loan be less than 500 duertes.

No loan can exceed half the value of the property mortgaged.

The Mortgagor shall bind himself to pay an annual sum so long as the mortgage lasts, said sum to represent the interest on the sum lent the amortization fund and commission to the Bank. This yearly sum shall be paid quarterly or half-yearly.

Series A—Quarterly.

Mortgage for 20 years 117 days, 8 per cent. interest, 2 per cent. amortization, and 1 per cent. commission.

Series B—Quarterly.

Mortgage for 27 years 270 days; 8 per cent. interest, 1 per cent. amortization, and 1 per cent. commission.

Series C—Half-yearly.

Mortgage for 20 years 190 days; 8 per cent. interest, 2 per cent. amortization, and 1 per cent. commission.

Series D—Half-yearly.

Mortgage for 28 years 5 days: 8 per cent interest, 1 per cent. amortization, and 1 per cent commission.

Upon the full payment of the yearly sums stipulated in the Mortgage, both property and Mortgagor shall be freed from all further obligation.

The Mortgagor shall be at liberty to anticipate the payments and to discharge the mortgage, all or in part.

Applications for mortgages must be made in writing, specifying the property offered, accompanied by the title deeds, the receipts of the Contribucion Directa tax, and setting forth that the property is free from all incumbrance, or if not the incumbrance that exists thereon, and which is to be paid off by the mortgage. The Secretary of the bank will supply applicants with the forms necessary as also the tables for amortization.

Quarterly mortgagers shall pay from 8th to 15th of each January, April, July and October, and half yearly mortgagors shall pay between the 8th and 15th of each January and July.

With the amortization fund, mortgage certificates (cedulas) shall be redeemed at par by quarterly and half yearly drawings.

The mortgage Bank pays the interest on the quarterly cedulas or mortgage certificates between the 31st December and 6th January, the 31st March and 6th April, the 30th June and 6th July, the 30th September and 6th October every year, and on the half yearly cedulas from the 31st December to 6th January, and from 30th June to 6th July.

The Mortgage Bank can act between the capitalist and mortgagor, free of charge in the way of realizing the cedulas, and for this purpose will receive deposits without interest, which will receive a preference, and which sums will be deposited in the Provincial Bank.

On and after the 15th February 1872 the Mortgage Bank will be open to the public.

José M. La Fuente,
Secretary.

Ferruginous Gin.

ANALYSIS
BY
Professor Kyle.

The Iron exists in the form of a protosalt, one fluid ounce of theGin containing 3-10ths of a grain of Protoxide of Iron. The Ferruginous Gin may therefore take its place amongst chalybeate preparations, and be employed with advantage where the administration of a tonic alcoholic stimulant is indicated.

A DISEASE WITH A HUNDRED SYMPTOMS.—Such is dyspepsia. It may be said to simulate almost every other complaint. Hot flushes and violent palpitations of the heart, which seem to indicate serious difficulty in the vital organs, are often caused solely by indigestion. A single dose of Bristol's Sugar-coated Pills will in that case be sure to afford relief. In fact they are always a safe and useful medicine, as they tend to reduce febrile action of every kind, without weakening the bodily powers. In all ailments the stomach, the liver, are more or less affected, either sympathetically or directly, and upon these organs the Pills operate most beneficially. cj—me

FALKLAND ISLANDS.

GOVERNOR D'ARCY'S REPORT.

The following interesting report on the Falkland Islands, from the pen of the Governor, is a document of great importance. We received it per last mail, and as the information is official, it can be relied on:—

Copy of a despatch from Governor D'Arcy to the Earl of Kimberley.

Government House, Stanley, Falkland Islands, Feb. 27, 1872.

My Lord,

In obedience to your lordship's circular of 7th March, 1871, I have the honour to transmit the Blue Book for 1871, within the first quarter of this year.

2. *Imports and Exports.*

Show an increase in value of £3,119 in the imports, and an increase of £4,802 in the exports.

3. *Legislation.*

The following ordinances were passed in 1871:

1st. Bankruptcy ordinance.

2nd. An ordinance to declare the law and practice in cases of escheat.

3rd. Wreck and salvage ordinance.

4th. Ordinance for regulating the disposal of crown lands in the Falkland Islands.

5th. Pilot ordinance.

Having dwelt in various Despatches on the necessity of the above measures being incorporated in the Statute Book of the Settlement, it is only for me now to report that they appear fully to answer the purposes intended by the framers.

4. *Shipping.*

The tonnage of vessels which entered the port in 1871 amounts to 29,959 tons, and the following vessels arrived in distress:—

	Tons
Adriana	1305
Republic	1361
Anna Parode	1008
Una	793
Una (second occasion)	793
Flower of the Forest	973
Princess	464
Enterprize	377
Admiral Fitzroy	377
Eagle	307
Galatea	353
Emmanuel	270
Stagshaw	244
Gustav	2.6
Victor	215

And moreover the crews of two shipwrecked vessels, 56 souls in all, the Sam Cairns,' and 'Knight Errant,' were taken off Tierra del Fuego by the Colonial schooner 'Louisa,' Charles Hansen, Master, whose humane conduct on this and other occasions deserves to be commemorated in this Report. In the depth of winter, on June 18th, a hurricane swept round the Horn, dismasting a fleet of merchant vessels, who were compelled to seek the shelter of this leeward port, to which, by an approximate calculation, may be conceded the merit of having, during the year, saved the lives of 280 mariners of all nations.

5. *Statistics.*

Of a population of 812 residents, 17 only died during 1871, and when it is remembered that 5 (five) of this small number met their death from accidents, the return speaks favourably for the climate, and on the reverse side the Registrar shows by his books 12 marriages and 33 births, 14 male, 19 female.

6. *Pastoral Prospects*

Are decidedly more favourable than they were two years ago, chiefly owing to the activity and zeal of the Falkland Islands Company's Manager, Mr. Cobb; the Company are now proprietors of between 40,000 and 50,000 sheep; the additional care and supervision bestowed has been well repaid, and the Company is in a position to offer a market to the smaller proprietors on the West Falkland, who are thus saved the expense of importing their stock from the River Plate. It now begins to dawn upon the settlers that the Islands are better adapted for sheep than for cattle: this discovery was made by Mr. Waldron of the West Falkland, and is now universally recognized; henceforth I imagine but few cattle will be raised, merely sufficient to feed the people on the farms, the ground being reserved for sheep walks. The short grasses of the Islands are very succulent (I do not allude to the tussac grass, only now to be found on the small islands that fringe the seaboard), and peculiarly adapted for sheep, so much so that even under the primitive farming of these islands the animal attains the same good condition it does in England with all the aid of turnips &c. Having recently made a tour of the East and West Falklands, I am in a position to report that the settlers are contented and hopeful of their prospects, and the land in both islands is now all taken up.

7. *Government School.*

The Inspectors' half-yearly report I have the honour to append.

To meet the requirements of the Inspectors a detached infant school has been erected in the school playground.

8. *Public Works*

Have but slowly progressed, owing chiefly to the weather being so unfavourable for work. The carpenters of the Royal Marines have worked almost continuously on the repairs necessary to be made on board the Colonial Government schooner 'Foam,' a vessel now 30 years old. Taking into consideration that the people have lately, by their indirect contributions, under the Spirit Duties Ordinance, added one-fifth to the revenue, it was thought opportune gradually to make improvements beneficial to the community. Among the first of these has been the lighting of the town. The bricklayers of the Royal Marines have repaired the reservoir, and are now employed on the gaol, which I hope to see roofed before the winter sets in. On the completion of the gaol. I have in contemplation the extension of the Government jetty, in order to enable vessels of 500 and 600 tons to discharge their cargoes alongside. A quarry of stone is in the immediate vicinity, and the only expense will be for labour, on account of which provision is made yearly in the estimates, and the wharfage dues will be a permanent, though not considerable, source of revenue.

9. *Vaccination.*

Small-pox being endemic in Montevideo and Buenos Ayres, this Government has established a system of quarantine, and the following rule in the Port Regulations is rigorously carried out:—

"No person is to be allowed to land from any vessel having on board any infectious or contagious disease, without permission from the Governor signified through the pilot; and every master must answer such inquiries as to the sanitary condition of his vessel, as may be made by the pilot; and no boat is to be allowed to board any vessel until after the pilot, nor even then in the event of there being any infectious disease on board the vessel."

Meanwhile the medical men of the settlement have been zealously giving effect to the local vaccination law. Some little hesitation was evinced by the people as to the utility of the measure, until the following convincing tabular statement was placed on the Gazette board—

Year	Deaths in London from Small-pox before Vaccination was by law established.	Year	Deaths in London from Small-pox after Vaccination.
1765	7,166	1865	646
1766	15,268	1866	1,388
1767	14,542	1867	1,322
1768	6,666	1868	606
1769	3,103	1869	273

In accordance with the instructions of Her Majesty's Secretary of State for the colonies, I enclose the return relating to vaccination required to be forwarded at the same time with the Blue Book.

10. *Trade.*

Owing to the late war in France the demand for oils has failed, a disappointment to the inhabitants of these islands, many of whom earned a livelihood by boiling down the penguins for oil. I am hopeful that peace having been concluded, this trade will return, and in the meantime the birds will have multiplied through being left unmolested. More serious, however, has been the collapse of the sealing trade, the supply of those animals having been exhausted in these seas, although it is supposed they are still abundant in the more southerly waters around the islands of Georgia and the South Shetlands, but the severity of the cold prevents the fishery of these seas from being attempted. Much to their credit, however, such is the energy of the people that they have already attempted new openings for trade. Cattle have been shipped to Sandy Point, where there is now a market, the Chilian Government having imported convicts for the public works, together with 600 soldiers. At first this energy was rewarded, but latterly the passages having been unusually protracted by westerly gales, the cattle died, and the undertaking has been found not to answer. An application has been received from a merchant at B. Ayres to rent the Beauchene and Georgia Islands for the purpose of working the large deposits known to be there of guano, of which a considerable quantity abounds at the various penguin rookeries situated on all the islands in the vicinity of the Falklands, but it is inferior in quality to that which is found in the Chincha Islands, in the Pacific Ocean, inasmuch as it does not contain ammonia. In the absence of ammonia the value of guano is determined by the amount of phosphate of lime that it contains, and the value of the penguin guano can easily be determined by analysis. I am satisfied in a few years a trade will spring up in this article, and that to allow the penguins to be killed for oil is killing the golden goose, with the golden egg. Yet as my predecessors passed a law sanctioning their slaughter, I hesitate before I attempt to repeal it. Is it too sanguine to hope that as the supply of guano becomes limited in the Pacific, our second rate guano may be in demand to help to compose a manure which is now selling at £15 the ton in the port of London?

Mr. Waldron, of the West Falklands, is also hopeful that the amount of fine fish of the mullet kind, which are to be found in summer in the small harbours might be turned to account by boiling them down for oil. Unfortunately there is not sufficient continuous heat in the sun's rays to dry salt fish for the markets in the River Plate, otherwise this might be a thriving trade.

The line of railway has been surveyed across the continent of South America from Buenos Ayres to Valparaiso, and it is in course of construction; this work when completed will cause a demand for fuel in a country where coal cannot be bought for less than £3 a ton.

Might not another trade be opened with advantage, that of compressing the peat, so plentiful in these Islands, into patent fuel? As a combustible this material has answered at Oranienbaum in Russia, where the locomotive engines are worked with compressed peat, and different processes have been experimented of converting it into coke.

11. *Keppel Island.*

As a dependency of this Government, is worthy of notice, and may be allowed a space in this Report. The settlement has been well chosen, facing due north; it receives every ray the sun has to spare in this Antarctic region; and the well-kept kitchen-gardens which meet the eye everywhere show industry of no common order. The Society are much indebted to the zeal and activity of their bailiff, Mr. Bartlett, who is a most valuable servant. Sickness amongst the English settlers of Keppel is quite unknown. This little Arcadian settlement will probably be the means of eventually civilizing the remaining few barbarous inhabitants of Tierra del Fuego. Three or four families of Fish Indians, converts to Christianity, are located at Keppel. They are a quiet intelligent race, much attached to their English catechists. Several of the natives have, however, died of consumption at Keppel, and it is supposed that this delicacy of constitution is developed owing to the warm clothing which they are for the sake of decency required to adopt, after having been for 15 or 20 years roaming about in their canoes in a very cold climate without clothing of any kind. With a wise discretion the Mission do not suffer these tyros in civilization to visit Stanley, where the public-houses would soon demoralize them. After a season of probation at Keppel Island, where they are taught agriculture, they are taken back to Ooshooia, the mission station on the south shore of Tierra del Fuego, and returned to their villages, where they become virtually missionaries themselves, and others again take their place at Keppel, to go through the same instruction.

It cannot be questioned that if these good missionaries are to succeed in making a man a Christian out of a mere savage and wild man, they must first make him a rational being, and it must contribute a great deal to forward his conversion if he can by degrees be brought into a settled mode of life, and to this most desirable end the mission is practically working by the mode so wisely adopted.

The natives, Fish and Foot Indians combined, are supposed only to be about 800 in number in all Tierra del Fuego; they have a language of their own, and are perfectly distinct from the Patagonians of the continent of South America.

The Rev. Mr. Bridges, the Superintentent now resident at Ooshooia, is laboriously engaged in writing a grammar and dictionary of the Fuegian language, which may thus be rescued from oblivion. It is much to be feared that the inhabitants are gradually dying off from cold, exposure, and want of cooked food.

I have, &c.,
(Signed) G. D'ARCY,
Governor.

The Earl Kimberley, K.G.,
&c. &c. &c.

B. A. AMATEUR FENCING AND GYMNASTIC CLUB.

The half-yearly meeting of the members of the above Club was held in the Gymnasium, 123, No. Calle Florida, on Tuesday evening last; Mr. J. Miller, the President of the Club, occupied the chair.

The Chairman, in his opening remarks, said he need not remind the members that the principal object of their meeting together was to elect a President and Committee for the ensuing six months.

The Secretary having read the minutes of the last general meeting, the Chairman proceeded to give a report of the financial position of the Club, which was found to be highly satisfactory, the balance of cash in hand being considerably larger than at the last general meeting, six months ago. The adoption of the report was carried.

The voting by ballot then took place to appoint one of the members to the post of President.

Mr. Miller, who was re-elected amid the applause of all, said that he thanked the members very much for this mark of their confidence (applause); he had hoped some one else would have been elected, as he thought that in a Club like ours a little infusion of "new blood" occasionally into the administrative powers was very beneficial to its well-being; but as it was, he need not assure them that he should continue to do everything that lay in his power to further the interests and conduce to the good of the Club. (Great applause.)

The members then proceeded to vote for a Committee for the ensuing term, the result of which was the election of the six following gentlemen, Messrs. Burns, Childs, Moore, Tyndale, Walkinshaw, and Linwood, with Mr. W. C. Roberts and J. P. Browne, as substitutes.

Mr. R. H. Martin moved a vote of thanks, in very eloquent terms, to the President and Committee for their services during the last six months; he said that the Club might mainly attribute its present flourishing condition to their untiring efforts, and begged to offer his congratulations on the very successful manner in which the late "Assault at Arms" had passed off, which was owing to the great trouble and forethought bestowed on it by the Committee (great applause).

Mr. Miller briefly returned thanks on behalf of himself and the Committee, and in conclusion, said he thought that a vote of thanks was due from the meeting to the Stewards who assisted at the fête, who he thought contributed so much to its success; he would not name any particular Steward, for they all equally 'worked well.'

Mr. Walkinshaw moved, that the thanks of this meeting be given to the STANDARD for its very able article on the last 'Assault at Arms'; he remarked, that the English newspapers in this city were always ready and willing to give their valuable aid in furthering the interests of our Institution, and all similar institutions, which he thought all would agree with him in saying, were conducive to the moral and physical well-being of Englishmen in Buenos Aires. The motion was seconded by Mr. Trant. Mr. Walkinshaw also moved a similar vote of thanks to the *Daily News*, seconded by Mr. Linwood (Carried unanimously).

Mr. Childs proposed a vote of thanks to Mr. A. W. Rooke for lending flags for the decoration of the room, on the occasion of the late fête. Carried with applause.

Mr. W. K. Brydges moved that "our thanks, our very best thanks, be given to the ladies for honouring us with their presence at our 'festival;' he thought that their presence was the secret of its great success: he did not take part in the 'assault' himself, but the men who did, he thought, must have felt inspired by so many bright eyes looking encouragement on their deeds, to do their very best. He hoped we should see them again at our next meeting, and that there would be twenty times the number." (tremendous applause.)

Mr. Miller, in closing the meeting, remarked to the members, that the committee were taking steps to obtain professors to teach the various branches of athletics.

The meeting then terminated.

THE MAGAZINES.

Mr. Daws, the widely known librarian, has sent us the following magazines for April, but we have not had time to examine one-quarter of them: "London Society," "Chambers's Journal," "The Young Gentleman's Magazine," "All the Year Round," "Good Words," "Englishwoman's Domestic Magazine," "The Sunday at Home," "Popular Educator," "Family Herald," a sixpenny volume of Dickens, and some others.

"London Society" has some very pleasant reading. 'A Simpleton' continues to increase in inetrest at every page. 'Two Years Since' is a pretty story of the Franco-Prussian war. G. Cruikshank jnr's. illustrations of New Year's Day are really side-splitting. 'No Intentions' has got as far as the marriage of Colonel Mordaunt with Irene. The 'Town Talk' is good.

"The Popular Educator," one of Cassell's works, should be in every school-room.

"All the Year Round," "Chambers's," and "Good Words" have apparently their usual diversity of matter.

"The Englishwoman's Magazine" is unusually rich in cuts, patterns, and all those things that ladies most delight in.

EDITOR'S TABLE.

Our West Coast Correspondent again opened the editorial ball yesterday morning, and, we are happy to say, with less afflicting intelligence than he supplied us with on Wednesday. The launching of the new Chilian Loan is announced, thus beating the news by the Pacific steamer of this week. Yesterday's telegram also proves that the West Coast is much nearer to Europe in a communication point of view than the River Plate. The loss of the Atlantic was known in Valparaiso on the 26th ult, and only reached us here, by the Galileo, on the 29th. The launching of the Chilian Loan was known in Chile on the 28th. When we have the Rio Cable working of course, "nous changerons tout cela.."

Where is Piscobamba? We thought so. Everyone in town was asking this question yesterday. It's in Peru; that's all we know about it. We opine it is a village like Flores or Lomas, not to be found on any average map. We have searched the 'Court' Library from top to bottom and the nearest word we can find to it is Pickles. That wont do; so perhaps some geographical subscriber will be kind enough to enlighten the public on the point. As for ourselves, we dont care where it is, or rather was before it was washed away.

Our highly esteemed colleague the *Tribuna* announced yesterday that the Paraguagans will not treat with General Mitre till the Argentine troops evacuate the Chaco. What fresh news! We published it more than a fortnight ago.

We hear that our brilliant young colleague Dr. Aristobulo del Valle has retired from the editorial-stool of the *Nacional*. While regretting that such a distinguished occupant of the 'Bus' has alighted, we offer our sincere condolences to our evening colleague on the event, which is alike a loss to it and the Public.

The telegram announcing the exit of San Salvador from this terrestrial sphere caused a slight agitation on the other side of the Plate. People there at first thought that it was San Salvador, B.O., that had gone to the bottom. It's not. Cold-water Salvador is all right, but Hot-water Salvador, of which we gave a full description yesterday, is now beyond the reach of anything but our prayers.

What's in a name? an Umbrella by any other name 'd keep off the rain. At a recent English meeting in this city several of the speakers made the most desperate and ludicrous efforts to pronounce the name of the present Lord Mayor, St. Uribellarea, but without a particle of success. One gentleman dislocated his wise teeth in trying it; another, a practised debater, burst the button of his shirt collar, and a third sprained his ear. After this the speakers, by common accord, adopted the STANDARD pronunciation of the word, and referred with unmoved muscles to Lord Mayor Umbrella. They showed their sense; better give a public man's name a good twist than one's own jaw a bad one in trying to pronounce the unpronounceable.

We cannot avoid referring to the Weather yesterday. It was simply 'hors ligne,' multiplied by a dozen. Autumn is making glorious amends for a rather muddy summer.

Rioja has just made a stunning demonstration in favor of Dr. Avellaneda; 1500 of the élite of the 'juventud' there have gone in neck and crop for the Minister of Worship. Here all young fellows from 18 to 26 have declared for Dr. Alsina, who is also the ladies' man, and this being the case, the Vice-President will be hard to beat.

"At a religious gathering in Chicago, a few years since, one of the speakers was the Rev. Dr. Goodell. Broken in mind and body, but animated by the occasion, the venerable clergyman said: 'Friends, I am far on upon my journey towards the Celestial City; but I could not help stopping on my way to attend this meeting in Chicago.' Here a voice from the multitude was heard by all: 'Chicago is not on that road.' The effect was electrical, especially upon the poor old gentleman, who was so confused that he could say no more, obliged to sit down."

Our esteemed subscriber Mr. Turmeau, of Calle Maipu, sent us a delicious round of Corned Beef yesterday as a birthday present, accompanied by the following graceful note. We only wish that all our patrons were equally delicate in their attentions. We adore Corned Beef, but have no objection in life to cigars, beer, sherry, preserves or, if absolutely necessary, a small piece of plate. Mr. T. writes:—"Dear Editors, allow me to congratulate you on the twelfth year of your existence, and hope that you will have many more; and also that you will enjoy the accompanying tribute to your great pluck in overcoming the hard work you must have had in establishing your paper on so firm a footing. Yours truly, C TURMEAU." P.S.—Stop! Hold on printers! Here's Mr. Bagley's well known porter with a box of the Elixir of Life, the Wonder of the Age, the great, glorious and sweet HESPERIDINA. Mr. Bagley we salute and thank you. May your shadow and the consumption of your unapproachable liquor never be less!

A contemporary hints at an extraordinary occurrence. A gentleman of the most respectable antecedents attempted to light the gas jet in his study, a few nights since, but it would not work. He went to the meter with a lighted candle; the only thing seen about the place since was the candlestick. Good Heavens!!

Dr. Lopez's book on Municipal reform is really the publication of the day. It displays an amount of erudition quite staggering. The Doctor has exhausted the subject, and we hope the Government will read his work. If there is a body in this vale of tears and impecuniosity that requires reform it is the corporation of this admirable city.

An American paper has the following:—

"The following is old—it belonged to the last generation—but it may be new to many at the present day. Old Parson Munson, of Worcester, used occasionally to be absent from his flock on missionary tours into distant States. Upon a certain summer Sabbath, having just returned from one of these excursions, he found his congregation quite drowsy, and for the purpose of waking them up he broke off in the midst of his sermon, and began to tell them what wonderful things he had seen in York State. Among other wonders, he said, he had there seen the largest mosquitoes it had ever been his fortune to fall in with—so large, in fact, that many of them would weigh a pound! The good people were by this time wide awake. 'Yes,' continued the parson; 'and, moreover, they have been known to climb up a tree, and bark!' The congregation were sleepy no more that day. On the day following two of the deacons of the church waited upon Parson Munson, and informed him that the members of his parish were much scandalised by the big stories he had told them from the pulpit. "What stories?" said the parson, with innocent surprise. "Why sir, you said that you had seen mosquitoes in York State that would weigh a pound." "I said", returned the parson, explanatorily, "that 'many' of them would weigh a pound: and I do really think that a 'great' many of them 'would' weigh a pound". "Well, but", continued the elder deacon, with a slight choking in his utterance, "you said they had been known to climb up a tree, and bark." "Certainly", said the parson, with an assuring nod. "As to their climbing up on a tree, I have seen them do that here in Worcester country." Haven't you, deacon?" "Oh, yes, I have seen 'em do that." "Well, how could they climb a tree without climbing on the bark?" The good deacons went their way with something very like a mosquito humming in their ears.

Last year the United Kingdom exported 3,535,157,576 yards of cotton piece goods. This shows how dependent England is on foreign demand for the prosperity of her factories.

A Rosario subscriber is anxious to have a list of the horses entered for this year's Derby. We have not got a 'Calendar', or any way of immediately producing the list. Perhaps some racing subscriber would kindly do the needful for our Rosario friend.

Mr. Julius Haase has returned from Patagonia via Paraguay—quite a short cut. He has brought back some splendid specimens from Patagonia, amongst them several of the finest gold yet discovered between the two Poles. Mr. H. has promised us any amount of things for the museum.

The rowis beginning. Yesterday bore the startling rumour that the Indians, to the number of 3,000, were concentrating towards Junin, and had reached a place called Ancalú. Where's the redoubtable Borges? We never hear an Indian mentioned without thinking of the Colonel. Three thousand savages are more than enough to devour or carry off poor Junin, and they'll do it, if some Colonel or Comandante does not turn up to prevent them.

The fall in the Funds on Wednesday fairly knocked the puff out of the Bulls. Such a sudden soss has not been witnessed here for a long time. On Monday a Bear might have sold himself, his family and all his future prospects for 80, and re-bought the lot on Wednesday at 77, a rather smart profit in two days. We have n't heard of a soul who did so, however, and all the ursine tribe were evidently asleep. There was a slight shake up yesterday, but the Bulls are still shivering.

The following about the great sculptor Thorvaldsen is interesting:—

"The 'Jason' seemed destined, however, to be but a barren success: it brought no patronage, and no one dreamt of ordering a copy in marble of this statue so highly praised. Thorvaldsen had reached the end of his means, and the Academy's bounty had already been continued to the farthest possible limit. To remain longer in Rome was impossible. After having deferred his departure from week to week and from day to day, he was forced at last to make up his mind that he must leave Italy, while his heart still yearned for the land seeming so near, yet ever eluding his grasp. The poor artist had packed his trunks; they were piled upon the vettura, which stood waiting at the door. Plaster casts, furniture, everything had been sold, when, at the last moment, his fellow-traveler, the Sculptor Hageman, came to announce that in consequence of some trouble about their passports, they would be obliged to wait till the next day. This trifling incident changed the fortunes of Thorvaldsen. A few hours afterward, the rich English banker, Thomas Hope coming into his atelier was struck by the majestic proportions of the 'Jason,' and asked the artist how much it would cost to put it into marble. 'Six hundred sequins,' replied the agitated sculptor, catching

eagerly at a ray of hope. 'That is not enough; you must have eight hundred," said the generous amateur. Life now assumed for Thorvaldsen a new aspect. He remained in Rome no longer a pensioner of the Academy, but an independent artist, living by his labor. From that day fortune, who crossed his threshold with the English banker, never abandoned him.

Fifteen days more of it! Yesterday the Government issued a decree extending the closing of this port against vessels from the B.O. till the 15th. So best. Montevideo is anything but a safe customer as yet, unhappily.

The Tucuman Government does not seem to have as much somnolency about it as its confreres. It has already issued a decree expropriating the lands necessary for the railway to Jujuy. The Railway to Jujuy!! Three years ago any man who spoke of such a thing as probable before the next century would have been thought mad.

Las Heras is going ahead like an express train. The plans for building a church, school, and town-house are already before the Government, and the place is evidently cut out for future prosperity.

Advices from San Juan are of the same old taste. Legislature going to meet, and the province going to pot; old elections annulled and new ones called for; old Governor used up, and new one wanted. People are in great fear that the mess wont end without a scrimmage. We hope nobody will be hurt.

The *Capital*, of Rosario, attacks the Municipality of that town to remove the Pyramid in the Plaza, which it considers an eyesore. An Italian opera company will make its debut tomorrow night. Madame Pocoleri is one of the troupe. Three 'embracers' who levanted from Buenos Ayres with a lot of costly new furniture have been boned by the police, some say the men made part payment. 'Les meubles' were intended to start a gorgeous house to be devoted to the worst of vice. The works on the tramway to the Railway station are now much advanced, and the rails are laid down to in front of Mr. Wheelwright's house.

The new treaty celebrated with Calfucura gives that worthy a right to 2,000 oxen, and any amount of gin and tobacco every three months.

"It is better to be a good farmer than a second-class professional. There are a thousand chances to one that a young man will make a third-class lawyer or doctor, or a preacher of still lower grade."

Two clergymen will sit in Congress this year, the Rev. Dean Alvarez for Entre Rios, and the Very Rev. Canon Zaballa, for Santa Fe.

The latest number of the *Anales de Agricultura* well sustains the increasing reputation of the paper. The frontispiece is a cut of a magnificent Cotswold the property of Mr. Lane, of Broadfields Farm. Mr. Victory y Suarez contributes an excellent article on the Rancho, and Dr. Weyenbergh's paper on Argentine insects and their effects on plants is equal in interest to his preceding chapters on the same subject. The miscellaneous articles are also of a kind most useful to the farmer.

PARIS LETTER.

(Our Own Correspondent.)

The flannel vests of M. Thiers, like the wraps of Rachel, are the conversation of the moment. It is well known that the famous 'tragédienne' became a prey to a veritable fever after her representations, in consequence of working herself up to the spirit of the character she delineated; to this succeeded exhaustive transpirations, and which eventually killed her. After finishing her role for the evening, her maids undressed her and rolled her in flannel, and she so reposed for a few hours. Her exhaution she avowed was the consequence of mechanical efforts to rise to the level of natural sentiment; she had studied the orators at work in several countries, and concluded the more they transpired, the greater had been their artifices. Wonder whether the People's William or Dizzy changed their vests after their recent encounter? However, M. Thiers neglected to take the precaution, following his recent display of oratorical fire-works that so dazzled his friends and blinded his foes with excess of light: the result is a severe cold, which compels him to remain in bed thirty-one minutes longer every morning, has prevented his dining with the Italian Ambassador—who is reputed to personally cook every banquet for his guests—and it is to be dreaded, will interfere with his standing up to defend the English commercial treaty from the assaults of both free-traders and protectionists. His new house, or rather his lady's, for it is her property, will be one story higher than the old one, and will certainly be completed before the column of Vendome be re-erected. Of his house, the President can boast, he found it in stucco, and left it in marble. If the communists get the chance, they will demolish the new structure more rapidly than the old, and—what they omitted in the first case—strew salt on the site.

The authorities are bringing to bear a nervous anxiety for the suppression of drunkeness. The legislature has already passed a law prohibiting cabby from accepting an intoxicated fare, and another punishing him with a fine in the event of his declining to drive a toper home. The wine-shops are said to keep a 'tunometer' on the premises to measure when clients are transformed into the state of sponge; they are then pushed into the street and consigned to the care of the god of drunkards. M. Guizot a few days ago stated that cognac drinking is making rapid strides among the women of Normandy, so proverbial for their industry and good manners, and that 'delirium tremens' is happily rare in the female population. An official at the same time remarked that the lunatic asylums had 20 per cent. more of female patients than of male—the victims of brandy drinking. When alcohol was really distilled from wine, it costs 10 frs. the gallon, its price is now but two frs., owing to the spirit being obtained from beet, and above all, from cider, which imparts to it a saccharine flavor. Madness brought on by drink gives the highest average attempts at self destruction. Absinthe is, however, the most terrible scourge, it destroys not only by its alcohol, but more deadly so, by the essences of the plants used in its preparation; it produces hallucinations resembling those manifested by dogs in hydrophobia, the same symptome can be induced even in dogs by giving them a little absinthe. It is not too much to expect that a crusade has also set in against vermouth, and bitters in general.

The undertakers' association, which is a sort of municipal monopoly, has of late been reaping such a golden harvest that an 'enlargement of premises' is to take place at their depot, and the salaries of their employés are to be raised. The living are honoured with a crumb of comfort that the nine classes of funerals—varying from 19 to 8000 frs.—will be somewhat cheaper for the future, and a shade better served. It is quite natural that the mutes should in consequence hold a second annual ball this season, and that the admission fee to their club should be raised.

The authorities have resolutely set themselves against granting permission to lecturers. One gentleman was refused the liberty to hold forth upon rain, and now a lady calls the immortal gods to witness how she has been prevented from ventilating an important subject on nervous excitement as affected by food, and a pressing topic into the bargain, when so many families are compelled to go on short commons, to say nothing of the austerities of the season. However, we have got one theatre more, the Renaissance, just rebuilt. The opening play is the 'Fire Woman', selected some say with the view of drying the walls. One of the latest contributions to racy literature is a letter from the old and retired clown, Auriol; a journal compared the performances of M. Thiers at Versailles to the feats of Auriol, and the latter indignantly rejects all connection 'with the house over the way'. Ridicule is just now largely employed against M. Thiers, the laugh being a terrible weapon in skilful hands. The most epigrammatic hit against our Washington is an epitaph by M. Raoul Duval: "Here lies Adolphe Thiers, President of the French Republic; he glorified the first empire, justified the second, and prepared the third." If all goes to bad, he will certainly give the Orleanists a chance before the Bonapartists. It is nearly time for natural history to secure specimens of the latter before they become extinct.

Pending that the Tribunal delivers judgment on the famous "Trans-continental and Memphis Railway," a new path found by Col. Freemont, there is an incident in the trial worthy of notice. One M. Crampton, the grand Puff of the bubble, pocketed 3 quarters of a million of francs for his services; he informed the Court he was quite ready to reimburse the sum, religiously thankful he was able to do so, and quoting that the Lord gave, so the Lord had a right to take away. The doctrine of a special providence is getting abused.

The Government has made as sad a failure as Mr. Lowe in dealing financially with matches. Lucifers never were cheaper than at the present moment, when the article is almost, legitimately, "hors de pris;" the smuggled article is even the better, just as prohibited fruit is sweetest. A tax on sulphur and phosphorus is spoken of. Formerly in cafés and 'cabarets' customers were welcome to fill their pockets with matches; now a single one is as gingerly presented as the orthodox four pieces of sugar, with the fairy cup of coffee.

It is impossible to really come at the true condition of Paris; it is said business is stagnant and everything regulated on the half-time movement. Yet never were the theatres &c. better filled; never were more bankers known to bolt with other people's money, never were robberies more lucrative, or tricks of trade more general. It seems the more millions that are sent to Berlin, the more pecuniarily plethoric becomes the condition of the country. Paris, though in Republic, is full of princes; dinners at this court's, balls at that duke's and suppers at such a princess' or marquis's; all this does not look as if we were dancing on a volcano; perhaps, regarding the uncertainty of M. Thiers, people desire to eat, drink and be merry. "How long has my husband to live, doctor?" "Not more than one hour, madame." "Can't you 'amuse' him an hour longer, till my son arrives."

An attorney advertises for a young and intelligent clerk, who above all things must know how to read and write.

A few days ago, the humblest of hearses, was followed along the Boulevard de Magenta by a single mourner, a lad aged seven, who was bitterly crying for his lost father: a little girl rushed forward and presented her red balloon to the little fellow, who thanked her; held it up by one hand, and carried his handkerchief in the other and sobbing, continued his route.

In a train to Versailles, the plate "for ladies," that indicates a reserved compartment for the fair sex, was accidentally substituted to the amazement of the occupants, to "unclaimed baggage."

ON CHANGE.

	May 1st, 1872.
Ounces	400
Sovereigns	122½
Patacons	25
National Bonds	78

The month of May has opened with a thick cloud over our money market. The crisis of yesterday was less severe to-day, but still there is a financial squeeze amongst speculators in all descriptions of stocks, which is quite strong enough for this market, and has already led to stiff losses. Bonds closed yesterday at 77, and opened to-day at 78. There was nothing sold cash.

For Friday 35,000, at 78.
Do. Saturday, 8,000, at 78.
Do. 31st May, 100,000, at 78½.
Do. do. 20,000, at 78¾.
In the liquidation no sales.

Cedulas again fell off to-day, and were largely dealt in.

The sales were—

Cash	Series A	5,000 at 95
"	" "	1,500 at 95
"	" "	2,000 at 95
"	" "	2,800 at 95
31st May	" "	5,000 at 95½
2nd May	" "	5,000 at 95
Cash	" "	8,000 at 95
"	" "	2,000 at 95
31st May	" "	10,000 at 95½
15th	" "	20,000 at 95⅝

In the liquidation this stock ruled much weaker and prices fell off.

Series A 6,000 cash 94⅝
" " 10,000 May 31st, 95½.

It was announced on 'Change that the Port Captain received from the Government to-day a decree ordering this port to remain closed for another 15 days from to-day. This caused surprize, as owing to the improved state of public health in Montevideo the opening of the port was looked to next week.

The sale of 2000 salted ox hides at 61r. was effected to-day by Messrs. Silges & Ferrando of Magdalena.

In exchange there is nothing much done. Bills offered at 48⅜. On Rio, 29:7d0. On Antwerp nothing done.

The most stirring news of the day was some report from Entre Rios—which, perhaps, took its origin from some of the political articles in the newspapers. We have received no telegrams whatever from Entre Rios, but there were rumors on 'Change that Jordan had this day invaded that province.

The news of the Senegal passing Montevideo came early, but her market news was cut short, owing to the Montevidean Post-office being closed.

The Montevidean telegram gave—
Bordeaux, Senegal (passed up).
Antwerp, 3d.

Market more active. Holders gave way, and large business done.
Large sales in wool.
Tallow, no change.
Hides firm. No stock.
Lisbon, 9th.

No news. Post-office closed.

The Senegal's news caused a better feeling on 'Change amongst barraqueros and wool men, but of course has had no visible influence on prices. To-day in the South market a barraquero states only poor wools offering. A good parcel of wool sold to-day at 62, same wool last December 87. A lot of belly wool sold ot 32. Sheepskins—no good skins offering.

Mr. Alexander Isaac was welcomed on 'Change to-day on his return from Europe.

It was stated on 'Change to-day that the Argentine Government has refused the application of Messrs. Lamas and Co. to run a line of steamers from Buenos Ayres to the United States, and for which Congress granted a subsidy of 20,000 pats. per annum.

Money ruled slightly easier to-day than yesterday. Good city bills are more easily discounted than loans on bonds and Cedulas.

The close of the month's accounts on the Bolsa has taken by surprise even the most experienced brokers, and many were so astonished at the way stocks and Cedulas came into the Liquidation room for cash, on Wednesday night, that it was a relief when the day closed; still some 40,000 Bonds remained over, the market being so restricted and money so tight that positively there were no buyers at any rate, and the stock had to stand till to-day. On last Monday Bonds for the end of the month were selling freely at 80 and 80½; and on Wednesday, without the least effort on the part of bulls or bears, Bonds could not be sold for 77. This shows the utter ignorance of even the sharpest brokers as to the real tone of the market. Last week the King, merely to close his transactions for the month, bought about 180,000 Bonds: had he waited, he might have got the stock 5 or 6 per cent. cheaper. The opportunities for making money in stocks were never greater than at present, but the elements are wanting. The money market, like the Bond market, has nonplussed the speculators; no man on 'Change can say to-day what the price of money will be in June or July, because no man at pst to study the real bearings of the market. Even in exchange, men in their calculations are so at fault that already some losses have been made, and no one can say what will be the closing rate for the Douro. As for Cedulas, people get completely out of their depth in this now highly important stock, and it has been remarked that nearly all the new brokers on 'Change have secured the orders for this stock. It looks very likely that these young hands if they have secured the orders, have also secured the losses. The month has closed badly for all, save the bears; and, owing to the long run of prosperity in the market and the continued upward turn of prices, the bears as a body have almost ceased to exist. The bears are again, however, coming on the boards; one or two parties have made very splendid profits in their April sales, and we may look forward to a still brisker business this month. Bearing Cedulas has for the last fortnight proved the best speculation, and as the applications at the Mortgage Bank are heavy and new Cedulas are almost daily emitted; the bear speculators feel safer dabbling in this stock than in National Bonds. The last mail per Galileo brings news of brokers and speculators paying in New York 1 and 1½ per cent. per day for advances on stocks. This shows a tightness in that market luckily unknown here. But the bull or bear that enters the Bond or Cedula market to-day with a little stock, a little money, and a good deal of pluck; can show the brokers how far the market now is above their ancient rules of speculation.

The arrival of the Vermejo exploring expedition on board the steamer Leguisamon is an important event, and we look for full details of the expedition from some of the members of the party. The steamer entered port at Sun—down on Tuesday evening and whistled violently for the Vista, but the Port Captain it seems did not send off a boat, subsequently the party came ashore, Mr. Haase was accidentally of the party, having come up from Punta Arenas and finding the port closed against Montevideo, instead of landing there went at once up to Paraguay; on his way down he fell in with the Leguisamon at orrientes and came down in her.

Of all the gold samples we have seen from these countries the gold dust and nuggets brought up by Mr. Haase from Punta Arenas are pre-eminently the best: we learn that they are simply the washings from the sand in the bed of the river, judging from these samples, the prospects of Punta Arenas are rather good, and when the place becomes well settled we may look for better results. We hope in a few days to be able to publish some interesting facts respecting Patagonia and the Straits, the guano trade down there is steadily growing, the coal mines on the coast are at last about to be worked, and we may soon look for some Argentine cargoes, which will be a novelty.

The Cutter was looked for to-day, as it was said she left Montevideo last night. The new Chilian steamer is also looked for, and as for the American mails, there seems nothing certain whatever about them; they may be in Montevideo or they may be at Pelotas.

The prospects of the new Lighterage Company are so good that it is thought now the shares will be all taken up in this market. Mr. V. Casares will be the manager of the new company—the right man in the right place.

The receipts of the Custom House continue heavy. On the 22nd ult. they amounted to 87,500 pats.: this is much over double the average, and shows the heavy import trade going on and means low exchange. The sales by importers were never better than at present, and next week there will be a great three day's trade sale at Messrs. Getting and Co's. We could wish to see exports as active as imports.

It was stated on 'Change to-day that the Board of Engineers has reported on the various tenders sent in to the Minister for the construction of the new railway from Rio Cuarto to Mercedes, San Luis, and that the bid or proposal recommended is that by Mr. Thomas, of Cordoba, who is associated with Mr. Rodgers. The public will be well pleased if these parties get the contract, as they are both well and favorably known both in Cordoba and here, and are just the men to fulfil their contract to the letter and finish the road in the most efficient manner, Mr. Rodgers is an American, possessed of large properties in Cordoba and a well known tan-yard. He comes from the Potomac, and most of the foreigners who have visited Cordoba are indebted to him for hospitalities.

In the plazas this morning there was more said about the Indians than wool. It seems that last night letters came announcing the Indians somewhere about Junin, at a place called Anculá. As all the lands about there are now settled on, and much property exists thereabouts, the news caused some talk amongst people connected up there. We suppose the Government has taken some steps.

The last mails from Paraguay fully confirm our advices from Asuncion more than a fortnight ago. Paraguay refuses to enter into any negotiations with General Mitre until the Argentines first evacuate the Chaco. This is a 'sine qua non.' It is possible, therefore, that the 'Paraguayan mission will amount to nothing.

Mr. Lafone Quevedo, of Montevideo, is now in London Mr. Richard O'Shea, of Buenos Ayres, is expected back in the Plate about the end of the year. Mr. Jones, the manager of the River Plate Bank in Montevideo, will shortly leave for England. Mr. Naylor leaves for Montevideo to take charge of the bank there. Mr. Charles Lumb will shortly leave for England. Mr. Barclay goes per next packet.

PRODUCE MARKETS.

SOUTH PLAZA. May 1.

The following is the result of the transactions and prices obtained:—

Wool.

13,700 arr. in several lots, according to class and condition, with more or less burr, were sold at $45, 48, 50, 62, 67, up to 68.
Fine class, 2 lots obtained 74 to 78, by Messrs. Peyredieu and Bradley and Lallave.
Borrega, several lots, 48 to 57.

Dry hides.

Campo, several lots, 192 to 198 pesada.

Sheepskins.

With wool, 178 to 215 doz.
Pelados, 42 to 49.
Lambs, 12 to 25.

Horse Hair.

Good mezcla from the south, 178 to 196 ar.

Nutria.

Small lots, $5 2 rls lb.

Grease and Tallow.

Camp cond. 45.
Panzas, 41 to 42.

Cereals—

Wheat.

According to class 133 to 205.

Maize.

According to class 49 to 56.

Barley.

According to class 36 to 45.

Flour.

According to class 35 to 36 ar.

Lambs for the Market.

200 sold ar 18 per head.

NORTH PLAZA. May 1, 1873.

In the Once to-day a bad attendance was remarked.

The wool business looked, if possible gloomier still.

One beautiful lot of fine wool had an offer of 72 per arrobe, which was refused, the broker asking 75.

Another very good lot was offered 66, but 68 was asked.

Sales—

Wool.

1000 arr., a very fine lot, good condition, 71.
2000 do good in small lots, 63 to 67
2000 ar lambs wool, with burr, 46-51.

Sheepskins.

A good deal of trouble in effecting sales.
400 doz, camp, half wool, 70-95
180 do de campo pelados, various lots, 30 to 40
200 do lambskins, long and descecho, 40 to 55
220 do medium 17 to 30
300 do, very young, 11 to 13.

Cow Hides.

Prices seem to be taking a turn upwards once more.
700 hides, a very superior lot, 204 to 306
1900 different lots, 185-200

Horsehides.

Confined to the usual small quantities.
120, pretty good lot. 58
250 in several lots, 49 to 57.

Hair.

250 ar good mezcla, several lots, 165 to 175

Grease.

We heard a buyer complaining of the scarcity of stock in market.
44 bords. shipping condition, 43½ to 44
200 ar in panzas, various, 42
40 small casks sebo pisado 33, 34.

Wheat.

This business to day was without animation, but holders feel sure of splendid results of their speculat ons.
200 fan good, 150 to 210
400 do fair, 130 to 145
100 do rather inferior, 100 to 120

Maiz.

Large arrivals; but prices are holding pretty firm.
150 fan. superior old maiz, desgranado, 57
300 do white, in espiga, 45 to 52
500 do both classes, 35 to 45

Barley.

The following sales effected—
60 fan. superior, 40
100 do regular, 30 to 37
250 fan. several lots, damaged, 20 to 27

Mr. Michael Allen's wool was offered for sale to-day. We noticed one buyer, who bought it last season, examining it very attentively. He offered 66; the broker asked 70, whereupon, after an amount of turns in the plaza the buyer advanced $1. It was no use: the broker would not come down anything. An hour was spent in walking from plaza to station and back again. The buyer said, "Well, I'll give you 68, because I know the wool, as I bought it last season." The broker considered a while, and after a long pause, said, "We'll see to-day, at the Bolsa." We heard the owner remark that, calculating from the offer he had at his estancia he loses 25 per arrobe, or, making up the whole amount, $100,000.

SAVINGS BANK

BANK MAUA AND CO.

101--Calle Cangallo--103

BUENOS AYRES.

The immense advantages of Accounts Current is now so generally felt and appreciated in the great emporiums of the River Plate, Montevideo, and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depository for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need sickness, or old age, instead of spending them in immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following the laudable example of their firm in Montevideo, the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositors a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P. P. MAUA & Co.,

M. A. DE FREITAS AMORIM

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p. %) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wish can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

P. P. Mauá & Co.

CELEBRATED SHEEP-DIP.

LICOR DERMATOSICO.

Prepared by
TORRE and BARTON, Druggists
DEFENSA, 65,67, and 69.

—o—

Guaranteed
Infallible for the Cure of Scab in Sheep.

—o—

After long and innumbrable trials, we have succeeded in preparing the above Sheep-dip, by the use of which we guarantee the thorough eradication of Scab in Sheep.

Besides cheapness and easy application, it has the great advantage over all other similar preparations of being
COMPLETELY SOLUBLE IN WATER,
a circumstance which admits of our liquid penetrating to the very surface of the skin, without spotting the wool or making it adhere.

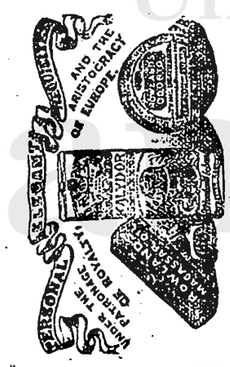
Bristol's sarsaparilla

Is prepared in the most scientific manner, by thoroughly educated chemists and Druggists, who have had many years' experience. It is not a simple extract from one article, but is compounded of extracts from a number of Roots, Herbs Barks, and Leaves, all of which are possessed of some particular virtue or power in curing the diseases that have their source in the blood and humors; these different vegetable extracts are combined in such a way as to retain, in so full strength, the special curative virtue possessed by each. The root of the Sarsaparilla plants found in Honduras, is that which we use in this preparation; it is the kind which all medical men esteem most. About fifty per cent. of Bristol's Sarsagarilla consists of the concentrated extract, the remainder, as above stated being composed of extracts from other powerful, cleansing and healing vehetable substances. It does not contain any thing that is dagerous or injurious to health, and in this, as in nearly every other respect, is entirely different from all other preparations sold under the name of Sarsaparilla.

By having our own agents at he places where the various roots, drugs, herbs and plants, composing our medicines, are produced, we are enabled to exercise that constant care in selection which insures uninformity of excellence, and we spare no money and no effort to procure the best—and only the best—of every article entering into their composition; and it is with the most abiding confidence we say, to be sick of all nations and all countries, that, in Bristol's Sarsaparilla you have a remedy more reliable than any before offered to you, and which will no disappoint you in the cure of.

Salt Rheum. Tetter, Scald Head.
Syphilis, or Veneral Disease.
Nervous and General Debility,
Old Sores, Ulcers, Tumors,
Abscesses, Boils, Eruptions
Scrofula or King's Evil,
Female Derangements,
White Swellings,
Fever and Ague,
Chills and Fever.
& Dumb Ague.

As a means of building up the constitution that has been broken down by the excessive use of Mercury, Iron, or other Minerals, our Sarsaparilla will be found most excellent, and can be administered with safety to the weakest patients. As a purifier of the blood and humors, in the Spring and early Summer, it will the found unfailing. It can be taken freely at seasons, rainy or dry. For some of the above diseases, the use of the Sarsaparilly must be continued a considerable time, especially for those that are hereditary or constitutional in their nature—such as Scrofula: but a faithful compliance with the directions will always relieve and mitigate, and in a great majority of cases will effect a complete cure. It will also be found, in all of the above diseases, that a cure will be greatly hasted by using our Bristol's Sugar-coated Pills, in moderate doses, in connection with the Sarsaparilla; they carry off large quantities of morbific or diseased matter set free in the system by the Sarsaparilla, and in this way facilitate the return to final functional operations. —cj— 46



BEAUTIFUL HAIR

Can only be obtained by the use of Rowland's Macassar Oil. It prevents the Hair falling off or turning grey, strengthens weak hair, causes it to grow on bald places, and makes it beautifully soft, pliable, and glossy. Price 3s. 6d., 7s., 10s. 6d. equal to four small, and 21s. per bottle.

IMPORTANT CAUTION.

Ask for 'Rowland's Macassar Oil, and avoid all other cheap articles under the same or similar names as spurious imitations. Each Bottle has a "Glass Stopper" in place of the Cork, as formerly. All with the 'Cork' are spurious imitations. This notice is deemed necessary, as the Proprietors have received intimation that a large quantity of Counterfeit, of the most pernicious quality, has lately been sent from France and Germany to India, South America, and the Colonies, under their names.

A BEAUTIFUL COMPLEXION

Is obtained by the use of Rowland's Kalydor, which allays all irritation and tenderness of the skin, removes cutaneous disfigurements, freckles, and tan, and imparts a healthy and blooming appearance to the complexion and skin. During the heat and dust of Summer especially, and in cases of Sunburn and Stings of Insects, it is of the utmost use. Price 4s. 6d. and 8s. 6d. per bottle. Ask for "Rowland's Kalydor," and see that their signature is in red ink on every bottle, as theirs is the only genuine.

WHITE AND SOUND TEETH

Are indispensable to personal attraction, and a healthy longevity, by the proper mastication of food. Rowland's Odonto Pearl Dentifrice preserves and imparts a pearl-like whiteness to the teeth, eradicates tartar and spots of incipient decay, strengthens the gums, and gives a pleasing fragrance to the breath. Price 2s. 9d. per box. Ask for "Rowland's Odonto," and see that their name is on the Government Stamp of every box.

ROWLAND'S ESSENCE OF TYRE

Never fails to produce immediately a perfect change in Red or Grey Hair, Whiskers, Eyebrows, &c., to a beautiful glossy and permanent Brown or Black, which colour remains so durable that neither washing or perspiration can remove it. Price 4s., 7s. 6d, and 10s. 6d per bottle.

All these articles have been used and justly appreciated by all the Sovereigns and Courts of Europe, the Pope of Rome, and the aristocracy of Europe during the last seventy years, being of inestimable value to those who have once used them. They are sold by all Chemists, Perfumers, and Bazaars, throughout India, the Colonies, and South American.

People of Buenos Ayres.

City Sewage and Water Works

The Committee encharged with the Sewage and Water Works of the City of Buenos Ayres have resolved, as empowered by law of September 26, 1872, to call for tenders under the following conditions.

Art. 1. Sealed tenders will be received by the London Local Committee until the 15th day of May, or by the head board here up to 15th June, 1873.

Art. 2. All proposals must be accompanied by the signatures of good responsible guarantees.

Art. 3. The proposals to be drawn up in any of these five ways—
1stly. For all works, including materials and hand work.
2ndly. For all hand work (the materials being supplied).
3rdly. For all the necessary materials, specifying each separately.
4thly. For each section of the works, separately,
5thly. For the materials and works of each section.

Art. 4. Contractors can go in for one or more sections, or even the whole work including materials.

Art. 5. The Committee will supply on application the plans and printed conditions, together with all necessary explanations.

Art. 6. The immediate commencement of the works being rendered necessary, contractors must be prepared to receive at cost price whatever may have been done.

Art. 7. The Committee reserves to itself the privilege of receiving proposals for the modifications on the plans accepted, or giving same to the contracting parties.
